CLIP CHART

# MoPar BATTERIES

Now, longer battery life is assured in the car or on the shelf because all plates in new MoPar Batteries are sealed with a super-hard coating of silver and cobalt to resist internal corrosion caused by overcharging. A new Plastic Seal on the positive terminal assures customers that every MoPar Battery is sealed at the factory and remains sealed until installed for use. The peak power and performance manufactured into each MoPar Battery cannot be used until this seal is broken.

ELECTROLYTE  
1843 124 QT.  
2084 649 5 GAL.

MoPar SUPREME - The ultimate in POWER-PLUS service - the highest quality battery available for longest life!

- SILVER-COBALT SEALED PLATES
- SPUN-GLASS INSULATION

MoPar DELUXE - A power-packed battery to meet the demands of the greatest number of drivers.

- SILVER-COBALT SEALED PLATES
- BIPLAK INSULATION

MoPar SPECIAL - Ideal for cost-conscious customers. Perfect for your used cars. . . LOW PRICED and a natural leader to attract battery prospects.

- SILVER-COBALT SEALED PLATES
- BIPLAK INSULATION

## 8-16-0 CABLE AND CONNECTIONS

NOTE: For a more practical and economical method of servicing, only the more complicated Assemblies will be stocked for service. These will be found in their respective groups. On the more simple Assemblies the required length and size of Cable, necessary Terminals, etc., should be specified. For visual chart of Insulator and Terminal Packages see front of group.

------	---------------------------	------	---------	----------------	----------------	-------------------

## 8-28-0 GENERATOR OR ALTERNATOR

- NOTE:** For Component Parts of Generators or Alternators see Part Type Code 8-29-0. Where Component Parts of a listed Generator or Alternator are not shown please order by description. Production Assemblies are for Identification purposes only. Order Service Generators or Alternators.
- NOTE:** Higher Ampere Leece-Neville Alternators and Alternator Regulators are used on some 1962 Vehicles. Mopar Parts Plants do not stock Complete Replacement Assemblies or Repair Parts for Leece-Neville Units. When Complete Alternator or Alternator Regulator Assemblies or Repair Parts are required, they should be ordered by Description Direct from the nearest Leece-Neville distributor or Leece-Neville, 1374 E. 51st Street, Cleveland 3, Ohio. Attaching Parts such as Brackets, Straps and Belts are available through your usual MoPar Parts Source.
- NOTE:** Part Numbers 2098 265, 2098 275 and 2098 320 were manufactured with 2 types of Alternators which are interchangeable as assemblies. Certain internal components are not interchangeable, therefore when specifying components for the above Alternators, w/PULLEY it is necessary to first identify the Alternators by the number stamped on same which are shown in the above column as Identification No. stamped on Alternator.
- NOTE:** Alternator 2098 265 includes No. 2095 430 Single Groove Pulley. If Double Groove Pulley is required change Pulley to No. 2095 662.
- NOTE:** Alternator 2098 320 includes No. 2095 059 Double Groove Pulley. When using on cars equipped with Single Groove Pulley it is not necessary to change Pulley to Single Groove.

**IMPORTANT:** When specifying Alternators or Components See Note:
